

University of Toronto Map Library: Air Photo Collection

The following is a listing of air photos available at the University of Toronto Map Library. Please note that digital collections of air photos (as well as other digital map resources) are restricted to University of Toronto faculty, students, and staff. Alumni, Research Reader, and Associate membership users are not allowed access to these digital resources due to licensing restrictions with data providers and/or for copyright reasons.

This listing is done by name of the region or city in alphabetic order. If you cannot find a specific location in the listing, try expanding your search by using a larger geographical area (eg. Search for Mississauga instead of Unionville). If you require further assistance, please ask at the reference desk or contact gis.maps@utoronto.ca

Air photos can also be found on many government web pages across the country. Federally, air photos can be purchased through the National Air Photo Library at <http://airphotos.nrcan.gc.ca/>. The Ontario Government's Ministry of Natural Resources also has a reading room in Peterborough where paper air photos can be consulted. The OMNR's web pages can be found at: <http://www.mnr.gov.on.ca/>.

Note the following abbreviations in the listing:

P = Paper; D = Digital; PP = Positive Print; C = Colour; BW = Black & White; Y = Orthorectified; N = Not Orthorectified
